

Public spaces are most lively when local residents can integrate their communal activities and socializing events with the sense of security, freedom, and **ENJOYMENT.**

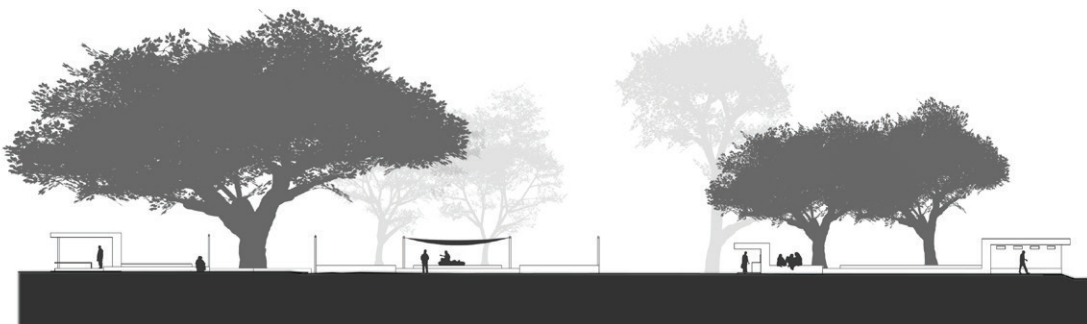

The modular plinth system offer versatility for different social scenarios. Varying heights between 20cm to 60cm allows the platforms to be freely integrated into different social scenarios, such as weekly market, festival gatherings, and extra.

SCALE 1:200

Atmospheric lighting underneath the Banyan trees create buffer zones, inviting people to gather for community events and festivities. This celebrates the local landmark with a sense of shared community pride.
